Safety, Sanitation and Health - Chapter 660 of The General Code of the Village of Galena
Village of Galena, Zoning Ordinance of 1984

1309.01 - Title

This Chapter shall be known as the Property Maintenance Code of the Village of Galena, Ohio, and may be referred to in this Chapter as "the Code".

1309.02 - Findings and Declaration of Policy

It is hereby found and declared that there exist in the Village of Galena, Ohio, structures used for residential and nonresidential use which are, or may become in the future, substandard with respect to structure and maintenance, or further; that such conditions, including but not limited to structural deterioration, lack of maintenance, the appearance of the exterior of the premises, and the existence of fire hazards and unsanitary conditions, constitute a menace to the health, safety, welfare and reasonable comfort of the citizens and inhabitants of the Village. It is further found and declared that, by reason of lack of maintenance and progressive deterioration, certain properties have the further effect of creating blighting conditions and initiating slums; and, that if the same are not curtailed and/or removed, the aforesaid conditions will grow and spread and will necessitate, in time, the expenditure of large amounts of public funds to correct and eliminate the same; and, that by reason of timely regulations and restrictions, as herein contained, the growth of slums and blight may be prevented and the immediate neighborhood and property values thereby maintained, the desirability and amenities of residential and nonresidential uses and immediate neighborhoods enhanced, and the public health, safety and welfare protected and fostered.

1309.03 - Purposes

The purpose of this Code is to protect the public health, safety and welfare of the citizens and inhabitants of the Village by establishing minimum standards governing the maintenance, appearance and condition of all residential and nonresidential premises; to fix certain responsibilities and duties upon owners and occupants; to authorize and establish procedures for the inspection of residential and nonresidential premises; to fix penalties for the violations of this Code; and to provide for the right of access across adjoining premises to permit repairs.
